

# UNLOCKING THE POWER OF DATA MANAGEMENT & ANALYTICS

**From Strategy to Execution: Transforming Data into Insights and Impact**

## About Our Company

**For over 20 years**, Eclipse Consulting Group has built a reputation for quality and continuity, delivering measurable results through technical expertise, attentive service, and vendor-independent solutions. Our clients trust us to strengthen their business and drive profitability with clear ROI.

**We are a globally recognized firm** specializing in advisory, consulting, technology, and managed services. With deep industry and subject matter expertise, we help organizations navigate change across people, processes, and technology. Our vision is to be the trusted partner of choice, delivering impactful solutions to complex challenges and enabling our clients to evolve.

**We are committed** to understanding organizational goals, challenges, and technical strategies to provide execution-focused, data-driven solutions. With a mission of merging cross-functional expertise with a data-centric focus, we deliver exceptional advisory and support services that drive lasting success.

## Our Capabilities

**Data Management**

**Process & Operational Excellence**

**Risk & Regulatory**

**Payments & Treasury Management**

**Financial Crimes**

**Banking**

# EXECUTIVE SUMMARY

**About Eclipse Consulting Group**

In the Data Management & Analytics practice, we enable organizations to take control of their data through strategic governance, clear ownership, and scalable architectures ensuring data is accurate, accessible, and business-ready.

**Trusted Advisors**

We partner with organizations to provide clarity and alignment in their data strategies, ensuring they achieve their business objectives with confidence.

**Proven Expertise**

Our team brings deep industry knowledge and a track record of delivering measurable outcomes that drive performance and innovation.

**Practical Outcomes**

We focus on real-world applications of data solutions, creating tangible results that align with operational and strategic goals.

**Best Practices, Right Sized**

By tailoring industry-leading methodologies to fit the unique needs of each client, we deliver solutions that are both scalable and practical for long-term success.

*At Eclipse, we empower organizations to transform their data into a strategic asset with scalable solutions in data management and analytics.*

# ECLIPSE KNOWS DATA: WE HAVE EXPERTISE THAT DELIVERS IMPACT

Our deep expertise spans the entire data lifecycle from governance and integration to advanced analytics. We transform complex data environments into valuable assets that drive measurable business impact.

We **build policies and processes** that make data accurate, secure, and easy to manage - without adding unnecessary red tape.

From strategy to execution, we **manage every phase of data** to help businesses get the most from their information.

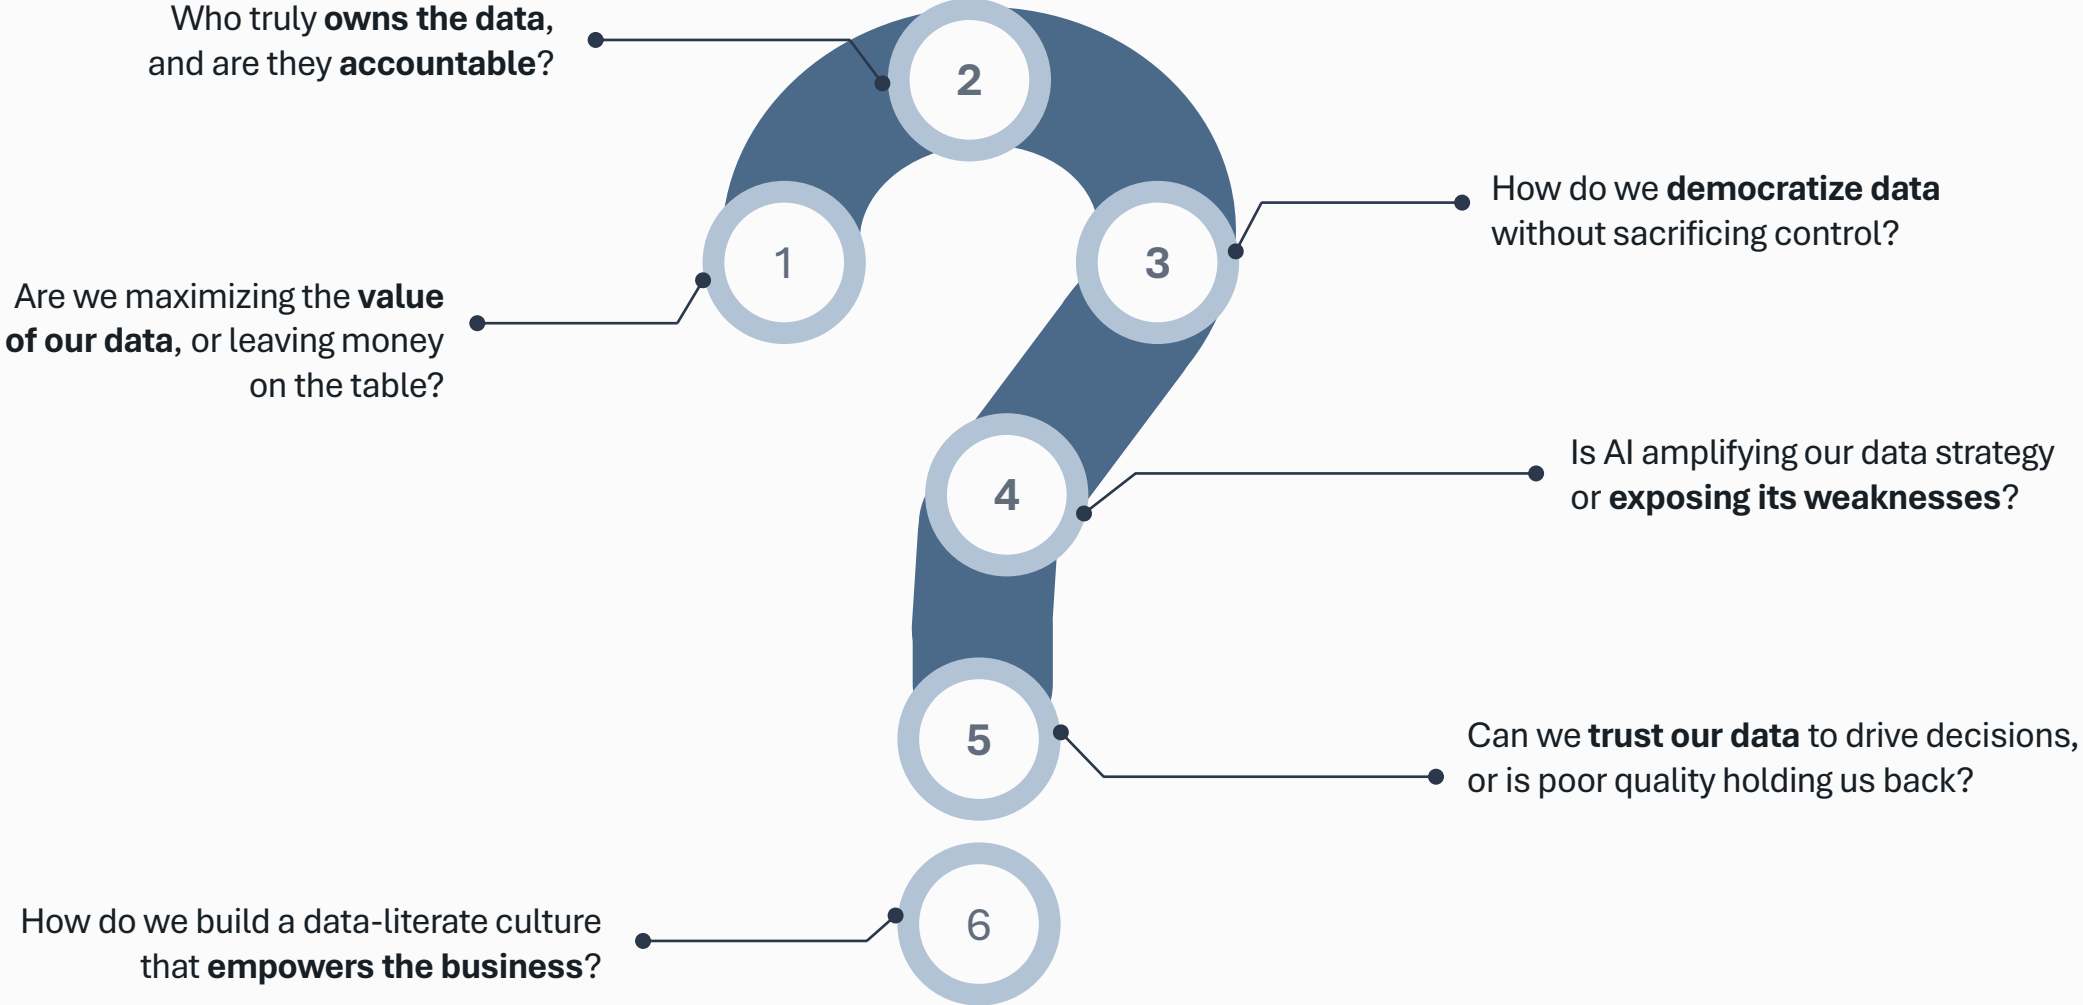

We **clean, standardize, and validate data** so teams can act with confidence.

We **connect disparate data sources** and systems to break down silos and ensure teams can assess the right data when they need it.

We **cut through the clutter**, helping organizations go beyond reports - balancing data risk with opportunity to drive real business impact

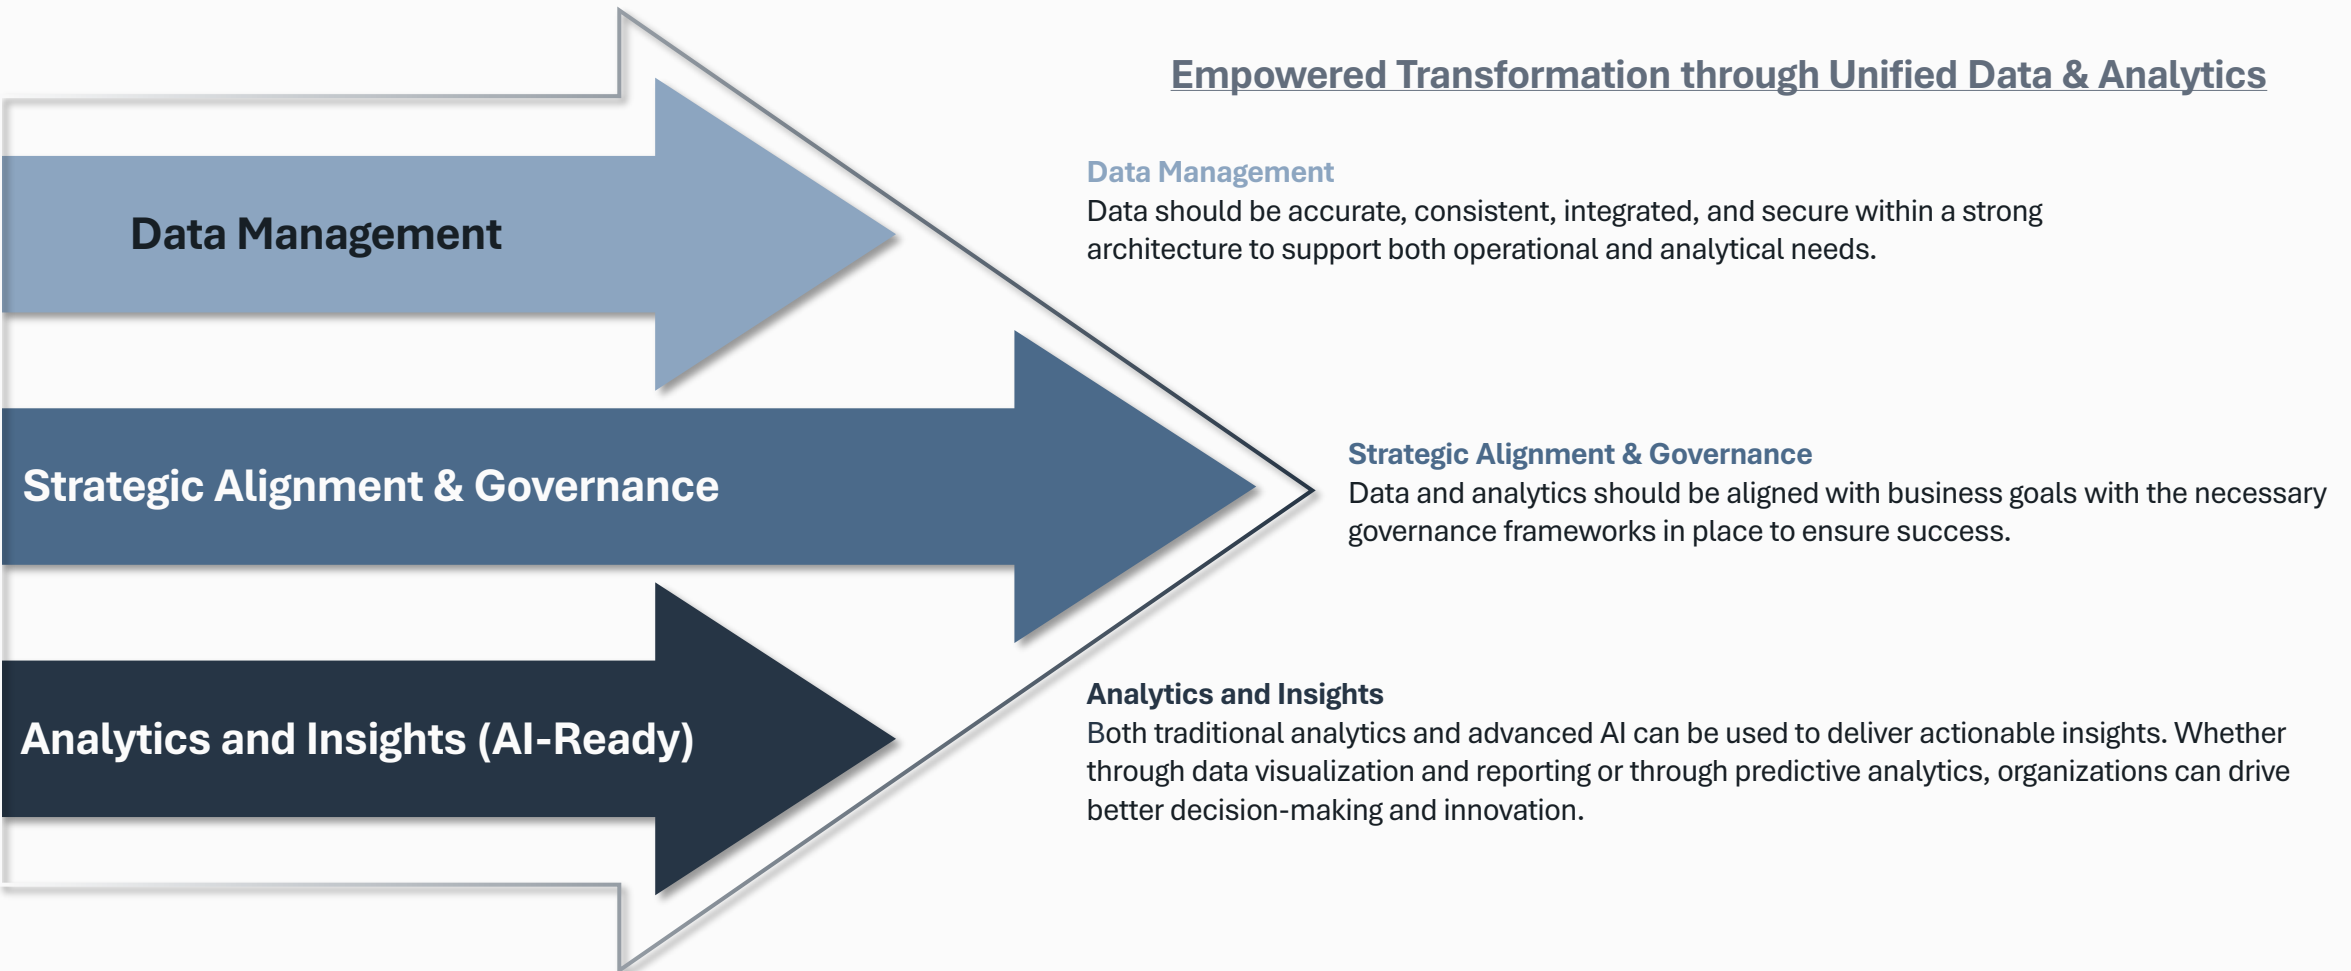

# COMMON INDUSTRY CHALLENGES IN DATA & ANALYTICS

Data challenges are universal – fragmented systems, unclear governance, and unreliable insights create barriers for organizations across industries. Without a strong data foundation, businesses miss critical opportunities, struggle to scale their analytics capabilities, and fail to fully leverage their data for informed decision-making and sustainable growth.

# TRANSFORMING DATA CHALLENGES INTO STRATEGIC VALUE

Overcoming data challenges requires a holistic approach that unites data management with analytics to deliver tangible business outcomes. By strengthening the data foundation and aligning it with the right people, processes, and technology, organizations can unlock continuous improvement, smarter decision-making, and long-term value. Eclipse helps businesses bridge the gap between data and AI, setting the foundation for solutions that drive transformation and sustained success.

## Empowered Transformation through Unified Data & Analytics

### **Data Management**

Data should be accurate, consistent, integrated, and secure within a strong architecture to support both operational and analytical needs.

### **Strategic Alignment & Governance**

Data and analytics should be aligned with business goals with the necessary governance frameworks in place to ensure success.

### **Analytics and Insights**

Both traditional analytics and advanced AI can be used to deliver actionable insights. Whether through data visualization and reporting or through predictive analytics, organizations can drive better decision-making and innovation.

# WHY ECLIPSE?

Eclipse delivers real business impact by being subject matter-led, execution focused. Our teams mobilize quickly, scale effectively, and drive measurable, sustainable outcomes. With a strategic and technical approach to data management and analytics, we ensure that governance, analytics, and automation align with business goals - turning data into a true asset.

### Real Business Impact

We don't just build frameworks—we execute. Our solutions drive measurable outcomes, ensuring long-term value beyond implementation.

### Strategic & Technical Excellence

We combine deep technical know-how with high-level strategic insights to ensure our solutions are not only cutting-edge but also aligned with your business objectives.

### Comprehensive Data & Analytics Expertise

We bridge the gap between foundational data management and cutting-edge analytics, enabling organizations to harness the full power of data.

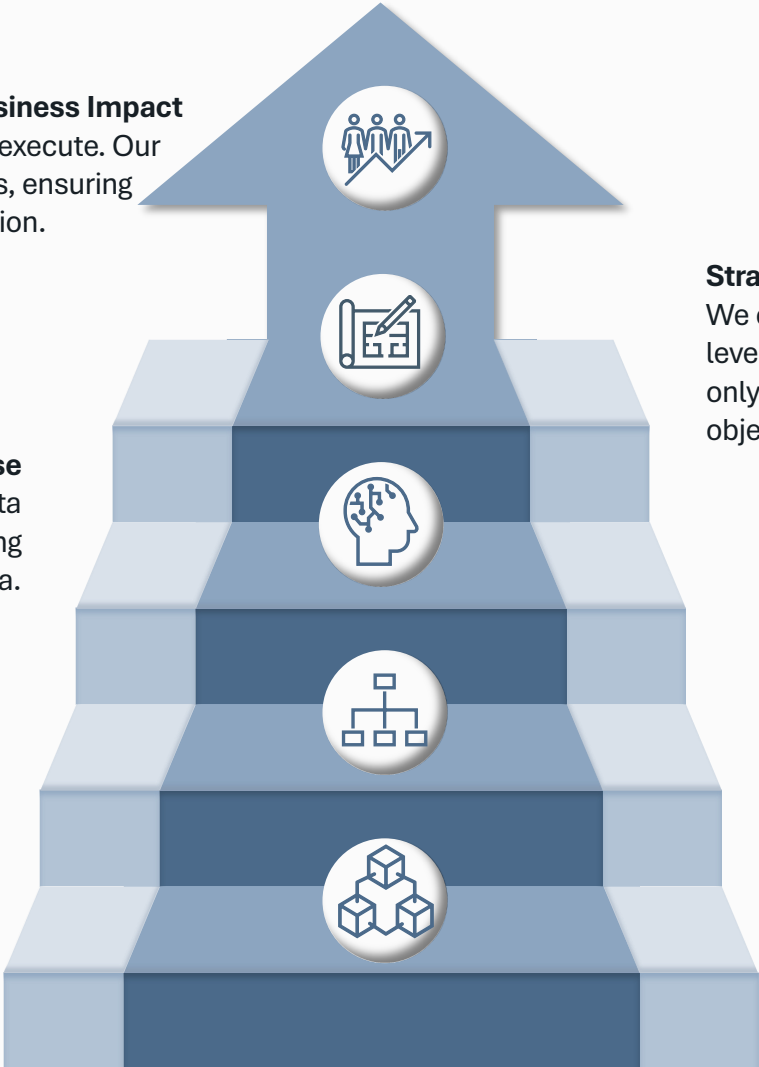

### Agile & Scalable Teams

We mobilize quickly, bring top-tier talent, and scale teams efficiently to meet the demands of complex data and analytics initiatives

### Proven Impact Across Industries

From transforming data governance in finance to optimizing operational efficiency in homebuilding, we consistently drive value by aligning data, people, and processes.

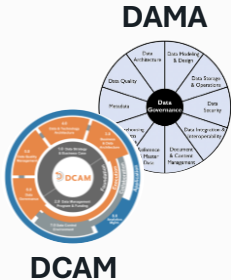

# BREAKING DOWN DATA MANAGEMENT

Once firms acknowledge the data challenges, the next question is: What does a strong data management program actually include? We help clients build just enough structure — tailored to their size, complexity, and ambition — using a modular framework that covers the essential building blocks of data governance, quality, and enablement.

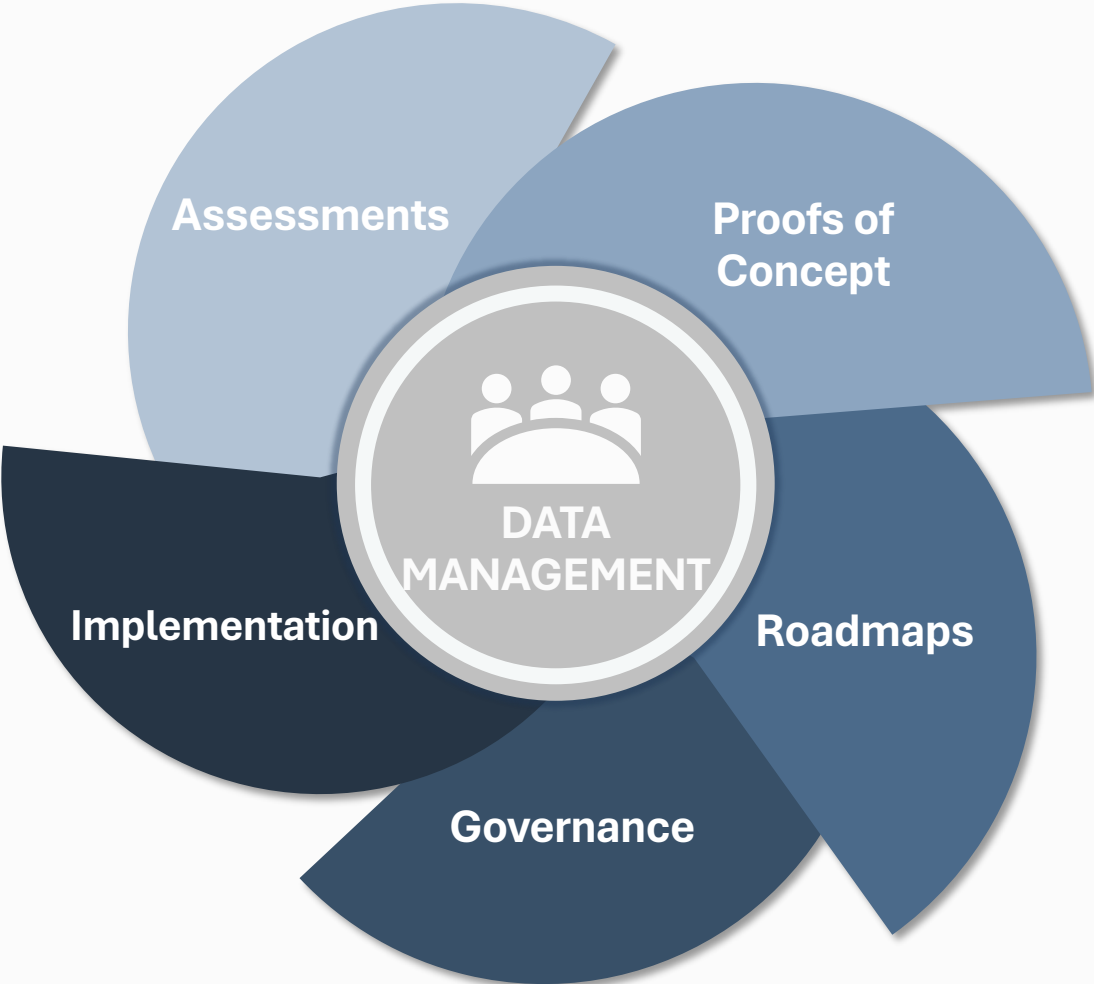

DATA STRATEGY & GOVERNANCE	BUSINESS & DATA ARCHITECTURE	DATA LIFECYCLE MANAGEMENT	DATA QUALITY & CONTROLS	DATA SECURITY & PRIVACY	DATA ANALYTICS	AI
Data Vision & Mission	Data Architecture & Design	Data Ingestion & Acquisition	Data Profiling & Measurement	Data Risk Management	Business Reporting	Strategy & Vision
Business Case Identification & Prioritization	Data Domains & Critical Data Elements	Data Storage & Management	Data Controls	Data Protection	Data Integration, Aggregation, & Transformation	Governance, Risk, & Compliance
Data Management Framework	Data Mapping	Data Sharing & Distribution	Data Quality Issue Management	Data Incident Response	Data Science & Machine Learning	Product & Use Case Delivery
Policies & Standards	Data Lineage	Data Archiving	Data Remediation		Data Visualization	Operations & Value Realization
Operating Model	Data Modeling	Data Retention & Compliance	Data Quality Monitoring			
	Business Glossary	Data Disposal				
	Metadata Management					

**NOT EVERY FIRM NEEDS TO START WITH ALL COMPONENTS AT ONCE. WE HELP YOU PRIORITIZE, AND RIGHT-SIZE BASED ON YOUR BUSINESS NEEDS, RISKS, AND STRATEGIC GOALS.**

# OUR SERVICE OFFERINGS
